-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 05 July 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

DETAILED ACTION

Claim Objections

Claims 3, 6, 10 and 13-14 are objected to because of the following informalities:

In claim 3 line 1, "2" should be replaced with "1".

In claim 3 lines 3 and 5, "similar" should be replaced with "45 degree".

Claim 6 depends from canceled claim 2, and moreover contradicts amended claim 1. Claim 6 should be canceled.

In claim 10 line 14, "second" should be "first".

Claim 13 depends from canceled claim 11, and moreover contradicts amended claim 10. Claim 13 should be canceled.

Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3-4, 7-10 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Church (US 4,696,498) in view of Duret (US 4,494,777).

The pipe connection of Church teaches and illustrates the features of the claimed present invention including a pin 54 formed with an elongated thread section 28 and

Art Unit: 3679

sealing surface 24, elongated thread section including reverse locking pin threads (fig. 2A) along the entire length of the thread section; a box 52 formed for direct engagement box threads along an interior surface with threads and wherein the sealing surface 24 forms a metal- to-metal seal with the box 40 and the box and the pin threads engage along the entire length of the thread section for inherently preventing the exacerbation corrosion of the box threads. As to the dovetail arrangement in claim 7 and claim 10 see "j" in fig. 2B. The Church device as noted above discloses the claimed device however the front and rear faces or flanks of the pin and the box are not disclosed to be at 45 degrees. Duret discloses that it is known in the art to provide a similar type coupling with the front and rear flanks to be at an acute angle. See Figure 5, col. 7, ll. 33-37 and col. 8, ll. 45-48. It would have been obvious to one having ordinary skill in the art at the time the invention was made to fabricate the front and rear flanks of the pin and box of the Church device to be at 45 degrees such as taught by Duret, in order to provide a more secure coupling.

Response to Arguments

Applicant's arguments filed 7/5/05 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 3679

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James M. Hewitt whose telephone number is 571-272-7084.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel Stodola can be reached on 571-272-7087. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
